VOLUME 27

JANESVILLE, WISCONSIN, FRIDAY, MAY 11, 1883.

Published Every Evening Except Sunday, at 5c a Year.

NUMBER 55

It is reported that Governor Butler, Roger A. Pryor, and Duncan S. Walker, three of the foremost criminal lawyers in this country, will defend Sheridan and Walsh should they be extradited by the British government.

Governor Rusk doesn't seem to take very kindly to proclamations. He thinks the business is ever-done and doubts the necessity of issuing one for Memorial day. But there is a strong sentiment in favor of the proclamation, and to please the veterans he will probably issue it.

A kindly mention of General Butler, from the Springfield Union: "The dancing Jack at present occupying the gubernatorial chair of Massachusetts, like the figure of the devil in pinchello, has succeeded in riveting upon himself and his antics the gaze of a continent of lookers-on."

Under the late change in computing the commissioners of the fourth-class postmasters an expenditure of \$600,000 more than would have been required under the old law will be necessary to settle the accounts of the fourth-class offices up to October 1, when the 2-cent postage law goes into operation.

Another opinion from a democratic paper—the Memphis Avalanche—on the tariff question: "Of the 5,000,000 democratic voters in the country about 4,952,735 are not troubling themselves about free trade. The United States was never so prosperous in all its parts as it is today and the democratic masses are quite content to let the free trade cranks discuss their impractical theories." It is always best to let well enough alone, and when the attempt is made to break down the present tariff system the popular sentiment will be on the side of the republican party and protection.

Fenner, charged with the murder of Hester, in Wood county last January, has been found guilty of murder in the first degree. A report from Grand Rapids, where the trial was held, says: "The judge instructed the jury, who, after being absent two hours and a quarter, returned with a verdict of guilty of murder in the first degree. Judge Bennett, after an impressive aduption to the prisoner, pronounced sentence of imprisonment for life at hard labor, the first three days of every year and every 19th day of January in solitary confinement. The prisoner received his sentence with the stoical indifference shown throughout the trial."

A jury has been obtained in the Dunn-Elliott murder case in Chicago, and now the prosecution begins. It can hardly be possible that Mr. Dunn will be convicted for simply killing Mr. Elliott. It is not every man who has the courage to meet such a man as Elliott with pistols or knives, and that Dunn was just mad enough to do it and to kill a prize-fighter, he has increased his greatness and won a host of friends among the sporting men and criminal classes in Chicago and other cities. The crime having been committed in Chicago, and a Chicago jury trying the murderer, it doesn't seem likely that he will be convicted. If he should be convicted, Chicago will have taken an important step forward.

There is a growing sentiment that President Arthur will be the next republican candidate for president. The New York Herald says of him:

"But about one thing we have no doubt at all. The republicans might do a great deal worse than renominate him. So far as we can see, he is the strongest man they can get. If, next year, they cannot re-elect Mr. Arthur, they cannot elect anybody."

The answer to this the Chicago Journal says:

"Now, when we think of it, there has not been a republican president elected since Abraham Lincoln's day whose defeat the Herald did not predict in advance. The only president that ever got elected with the aid of the Herald, during the last twenty-five years, was James Buchanan."

If the Journal will take time to think a moment it will probably remember that the Herald printed some very strong editorials in 1868 in favor of General Grant, although the policy of the paper was not to give him its support."

The Burlington Hawkeye editors seem to have a corner on federal offices. John W. Burdette, brother of Robert, the humorist, who has been editor of the paper for some time, has been appointed collector of internal revenue for that district. Another editor, Mr. Waite, is postmaster at Burlington, and Frank Hatton, the editor-in-chief of the paper and its proprietor, is assistant postmaster general. To this state of things the Inter Ocean very pertinently remarks that "if there are any other editors or proprietors of the paper who have been overlooked in the distribution will they please signify by rising? There is a painful suspicion that there may be a clerk or a carrier somewhere around the Hawkeye building who hasn't been recognized."

The State Journal says that fears are expressed in Chicago that there will be another cut in rates to the west and northwest. It is stated that there is an agreement between the roads running to St. Paul and Minneapolis for the maintenance of passenger rates, but this agreement, it is claimed, has not been maintained by all the lines. In consequence, considerable bad blood has been shown during the last few weeks, especially be-

tween the Rock Island and Milwaukee & St. Paul. The Rock Island, it is understood, has been getting away with a large proportion of the emigration business to the northwest, and the Milwaukee & St. Paul and Northwestern claimed that it obtained it by unfair means, which however, is emphatically denied by the Rock Island. It is learned now that notice has been given by one of the Iowa lines of its withdrawal from the passenger pool on Omaha and Council Bluff's business, and this of course will carry with it an abandonment of the passenger agreement on northwestern business. It is generally believed that unless something is speedily done to restore amicable relations between the various northwestern and western lines the passenger war of last fall will be repeated again before many days have passed.

FIRE AND FURY.

A Day of Destruction East and West.

Great Fire at Communipaw, New Jersey.

Six Men Cremated in the Flames—The Work of the Wind and Rain.

NEW YORK, May 11.—During the progress of the thunder-storm which passed over this city and its vicinity about 3:30 o'clock yesterday morning, lightning struck one of the oil tanks at Cavan's Point, just below Communipaw, belonging to the National Storage company. The tank contained a great quantity of oil belonging to the Standard Oil company. Immediately the combustible mass burst into flames, which rolled heavenward in a roaring volume. The fire began to spread at once. The scorching, burning oil boiled over the sides of the tank, and the flames leaped across to the next great reservoir, and ignited the oil in it at once. Not long afterwards a third tank ignited, and exploded with a terrible roar, followed by a loud报告.

STEUNG UP.

The "Wicked Spirit" Which Caused a Man to Kill His Wife Choked Out of Him.

ST. JOHN, N. B., May 11.—William Hughes, colored, who murdered his wife in February last, was hanged in the jail-yard here Wednesday afternoon. He walked to the scaffold without flinching. The hangman did his work well, and death was instantaneous. William Hughes was a full-blooded negro, born in Rockbridge county, Virginia, in slavery in 1845. He remained in slavery until 1865, when he was emancipated at the close of the war. In his written confession he says:

"About seven years ago, before the great fire, I came to New Brunswick by way of Halifax. I could tell what was the master with me, as I could not make myself contented. After I came to New Brunswick I got married, that was ten or twelve months after I came. After I got married I never could use my wife as well as I would like to. We had not been married more than a week longer, we had a falling out, and she left me. She still always wanted to love me and try to do everything I told her that she possibly could. I always had an overbearing spirit and hard feeling toward her, for what cause I could not tell. We often fell out, and she used several times to tell me she wanted to leave me, but she always came back to me again. The last time she wanted to leave me, I told her I was going to whip her if she did not come back to me. I told her I would not live many weeks anyway. Kill her and you will be hung and both of you will be out of the way." I then snatched a hatchet and buried it in the neck of my wife. Four blows followed in rapid succession, and she fell at my feet without a groan. Mrs. Thompson fled from the house and I remained in the house with the body of my victim twelve hours until the constable arrived and took me into custody. I did not kill her because I was jealous, but because she refused to live with me. I was born of the plantation of Mr. Donaldson, a white man. I was born in 1845. When I came to his in-law, Mr. Edens. What little education I have I picked up here and there. I never had so severely flogged while in slavery, but punished a few times when I deserved it. I was whipped a few times with a cowhide. You won't live many weeks anyway. Kill her and you will be hung and both of you will be out of the way."

He was apparently successful in their efforts until nearly 5 o'clock, when tank No. 7, containing 20,000 barrels of oil, suddenly exploded with a terrific report. The heavy brick walls on which the tank rested, over 100 feet long, were blown in every direction, and pieces of the heavy iron twisted into sharp points. The tank which the lightning struck was No. 4, standing in the middle of the point of the edge of the shore. The flames leaped across from this, and the next seen to be burning was No. 1. The scene at this time is described as appalling. Dense volumes of black smoke rolled upward through the air, filling the sky with smoke and flame.

POPE'S POLICY.

Gen. Pope Talks Politics and Indian Management, and Discusses

Sergt Mason.

CHICAGO, May 11.

In an interview with Maj. Gen. John Pope, commander of the department of the Missouri, a reporter learned the general's views on several topics of public interest. Speaking of the incipient movement to connect Gen. Sherman with the coming national contest for the presidency, Gen. Pope said: "The idea has hardly permeated army circles as yet. At least I have not heard any talk in the army with reference to Gen. Sherman being a possible candidate for president. I know that his name has been mentioned in that connection elsewhere, but I hardly think he deserves the honor." Gen. Sherman is not much of a politician, and has manifested little if at all with such matters. His time for retiring from the army under the law, if he so wishes, is next February, but I understand it is his purpose to go out next November, and I presume that, in his case, he will be allowed to anticipate the date."

"What about your proposition to distribute the Indians around in civilized communities?"

"For ten years I have believed in an advice given me by my father, the late Gen. George Custer, to put all of the aboriginal tribes in settled and more thickly settled portions of the country. It is conceded that the government must support these Indians. Why not place them where it can be done properly? Why should we transport unwilling Indians from their homes? The associated Press franchises have been given to the Associated Press franchises, which there is no eccentric need for so doing." Apart from this, they nor their children can ever receive the benefits of civilization such as would accrue to them were they near those who could impart it to them. Some of the Indian reservations in Arizona are as large as several states combined. The Indians are scattered over the whole land. They do not live for the reason that game is extinct. They sell around the agents, and are fed by the government. The richest lands in the world are kept from being settled by those who would develop their resources and contribute to the prosperity of the country, and to the welfare of the people. Indians are not fit to be a part of a nation, and are not disposed to appreciate it if they did."

"The Indian contractors, it is presumed, oppose your scheme?"

"The opposition does not come from them. The Indians are the principal opponents of any movement of such a character. The churches of the land secure the appointment of clergymen to deal with the Indians, and these agents want the land preserved for the tribes. The influence of the church selects clergymen to transact a business, not by the methods of the world, but by the methods of God. This is best illustrated by the fact that clergymen would not be selected to transact the business of your common council, and administer the business affairs of your city or its corporation."

"The management of the Indians, the distribution and purchase of supplies, requires men who have some practical knowledge of the country and its resources. These men do not possess these. It is useless to demonstrate, and say that those who are appointed by church influence are not competent, for it will not be believed. Nothing that you can say sustains such incompetency as can be demonstrated. The fact remains, however, that the Indians are not fit to be a part of the nation, any more than they are fit to be a part of the world. The Indians are not fit to be a part of the nation, any more than they are fit to be a part of the world."

"On the contrary, she determined me to stay and build to this work?"

"Is Mr. Cockrell coming now?"

"I have not made up my mind."

ROYAL BAKING POWDER

Absolutely Pure.

This powder never wastes. A marvel at purity, strength and whiteness. More economical than the ordinary kinds, and cannot be beaten in quality or price. Sold only in cans.

ROYAL BAKING POWDER CO., NEW YORK.

NOTICE TO CREDITORS—COUNTY COURT OF ROCK COUNTY—In the matter of the estate of Henry W. Ross, deceased.

Letters of administration having been issued this day to L. D. Jerome, and the allowance creditors to receive payment for allowance have been directed to the fourth day of December next, inclusive, notice is hereby given that this court, at the office of the Judge thereof, in the city of Janesville, will receive at the noon December term, to be held on the fourth day of December next, from 1:30 o'clock p.m. to 3 o'clock p.m., will receive and examine and adjust all claims and demands against said deceased.—Dated April 19, 1883.

By the Court AMOS P. PRICHARD, County Judge.

apretdowenw

CIRCUIT COURT, ROCK COUNTY—Same

Court, at the noon December term, to be held on the 4th day of Decem-

ber, 1883, to the same named plaintiff

and against the above named defendant,

will offer for sale and sell at public auction to the highest bidder, in the city of Janesville, the said property in front of the

Court House, in said city.

On Monday, the 21st day of May, A.D. 1883,

at 10 o'clock in the forenoon, of that day all

that certain piece, parcel or tract of land, situated lying and being in the County of Rock,

State of Wisconsin, and known and described in the Deed Book J, page 20, in the block

number forty-eight (48) in the original plat of

the village of Janesville, as per map thereof

or much thereof may be contained therein,

or the same may be contained therein, principally

costs and attorney's fees and disbursements in the aforesaid action, as provided in

said judgment, and which may be sold sepa-

rately without injury to the parties interested.

Dated March 30, 1883.

R. B. HARPER,

Sheriff of Rock Co.,

markdowenw

A Hard Witness.

Advance at Your Peril.

"Well, I was beat out of a splendid evening's engagement. Sunday night," said the cigarette-smoking young man, the young man with the well balanced mind, if parting his hair in the middle balances his mind. It was Monday evening, and he was unburdening himself to the drug clerk.

"What was the trouble?" said the drug clerk, as he took a bottle of perfume and squirted some in his hair and on his vest. "Did some other fellow get to the girl's house ahead of you?"

"No, but I was stood off." You see, I went to the house, and the servant let me in and I was seated in the parlor. My girl came in the room, with woe depicted on every feature. She stood with her head down, her hands clasped in front of her, so tight that the blood stopped circulating in her fingers, and she seemed utterly crushed. It made me sick at heart to look at her, and I knew something dreadful had happened. I got up and started toward her, to take her in my arms; let her head rest on my bosom; and help her bear the burden that was evidently killing her, but before I had advanced two steps she had up her hand and shouted: "Back, back! Another step at your peril!" I stopped and tried to find out what was the matter, but she would not speak. Finally I started for her again, but she had up her hands again and said: "Go, leave me! I am not strong. Go, and to-morrow I will write you all." Well, I went. Any gentleman would, under the circumstances, and all night I dreamed that she was dying, and this morning I went by her house to see if there was anyone at the door. I tell you, pills, I have suffered more in the last eighteen hours than man ever suffered before. I could see her laid out, and the bier in front of the house, and everything was as plain to me as though it had actually occurred. I have shovelled the postoffice all day, and I just got this note, explaining it."

"Good heavens, she is not dead," said the drug clerk, as he pounded some herbs in a mortar.

"No, she is alive, but I don't know what she meant by telling me she was not strong last night. She writes me that she had been eating onions for a cold. That was the reason she told me to advance one step at my peril. Why, I could have discounted them onions. I had been eating limberg cheese all the afternoon, with the boys, at the poker rooms and onions wouldn't have made a first payment on me. Just think what an evening I missed by this confounded superstition about onions. Have a cigarette, pills," and the young man with the well-balanced mind pulled out a case and treated his friend, and they sat and smoked in silence until a woman came in after a bottle of castor oil. —Peek's Sun.

A Hard Witness.

"Do you know the prisoner well?" asked the attorney.

"Never knew him sick," replied the witness.

"No levity," said the lawyer, sternly.

"Now, sir, did you ever see the prisoner at the bar?"

"Took many a drink with him at the bar."

"Answer my question, sir," yelled the lawyer. "How long have you known the prisoner?"

"From two feet up to five feet ten inches."

"Will the Court make the—?"

"I have, Judge," said the witness, anticipating the lawyer; "I knew the prisoner when he was a boy two feet long and a man five feet ten."

"Your Honor—"

"It's fact, Judge, I'm under oath," persisted the witness.

The lawyer arose, placed both hands on the table in front of him, spread his legs apart, leaned his body over the table and said:

"Will you tell the Court what you know about this case?"

"That ain't his name," replied the witness.

"What ain't his name?"

"Case."

"Who said it was?"

"You did. You wanted to know what I knew about this case. His name's Smith."

"Your Honor," howled the attorney, plucking his beard out by the roots, "will you make this man answer?"

"Witness," said the Judge, "you must answer the questions put to you."

"Land o' Goshen, Judge, hasn't I been doin' it? Let the blamed curse fire away. I'm all ready."

"Then," said the lawyer, "don't beat about the bush any more. You and the prisoner have been friends?"

"Never," promptly responded the witness.

"What wasn't you summoned here as a friend?"

"No, sir; I was summoned here as a Presbyterian. Navy one of us was ever friends. He's an old-line Baptist, without a drop of Quaker in him."

"Stand down," yelled the lawyer, in disgust.

"Hey!"

"Stand down."

"Can't do it. I'll sit down or stand up."

"Sheriff, remove the man from the box."

Witness retires, muttering: "Well, if he ain't the thick-headed cuss I ever laid eyes on." —Utica Observer.

The Handsome Man in France.

Nowhere in all France can we meet

with men of finer or more robust frames

or of handsomer features than in Lower Normandy. As a matter of statistics, the men of the Cotentin, although

unable as a body to stand back to back

with the men of the Doubs and Jura de-

partments—the descendants of the

"seven-feet Burgundians"—have sel- dom to be excluded from the ranks of

the French cuirassiers on the ground of

insufficient height. As a matter of per-

sonal observation, it is sufficient to visit

Bayeux or Coutances on market days

to be convinced that the tall, athletic

looking farmers who are busy over the

sale of their stock or butter belong not

to the conventional French type, but to

a wholly different one, and that Teu-

tonic or Scandinavian. In point of

complexion, too, we notice, at least in

certain districts, a like conformatio-

to the Northern races. Among the factory

hands of St. Léon and the artisans of

Coutances a large proportion are found

to possess the fair features—light hair

and blue eyes—and the long visage

which are characteristic of the Danish

and Norwegian types. And the fact of

these peculiarities is rendered the more

conspicuous when we contrast with the

populations of these towns and neigh-

borhoods that of Granville—distant not

twenty miles from Coutances—where

the dissimilar type suggests the presence

of a seaborne colony, possibly of Basque

origin.—British Quarterly Review.

—Indian Agent Wilcox does not seem to

appreciate red angles. He thus an-

nounces the outlook in his region: "The

wings are sprouting from the armpits of

my Indians on the San Carlos reser-

vation."

THIS GREAT REMEDY WAS DISCOVERED BY A MISSIONARY IN BOSTON. SEND A SELF-ADDRESSED ENVELOPE TO THE REV. JOSEPH T. IRVINE, STATION D NEW YORK CITY.

BRIEFS.

—There was heavy frost last night.
—W. H. Sargent Post No. 20, G. A. R. meet at post headquarters this evening.

—All who attended the social given by the Daughters of Rebecca last evening report having had a pleasant evening. The party was a success in every particular.

—The trains from Madison, heretofore arriving at 1:45 p. m., on the Chicago, Milwaukee & St. Paul railway, has again been put on the time card for the accommodation of the traveling people.

—See the advertisement of the new New York Saving Store, which will open at No. 21 West Milwaukee street, tomorrow, with a complete stock of military, fancy goods, notions, etc., at New York prices.

—A couple of young ladies were evidently forcing the season a little to-day in the court house park. They quietly spread their cloth under the shade of the large flower stand near the lower fountain, and partook of their picnic repast.

—William Heise has purchased the brick building on North Franklin street owned by Mr. Geo. K. Colling and occupied by Mr. R. C. Yoemans as a gas fitting establishment, and will occupy the same as a saloon as soon as he can gain possession.

—Mr. Felters received a telegram this morning from his wife dated at Canton last night, saying that her father, Dr. Conkey, was still very low, but his symptoms appeared to be somewhat better, and that there was yet hope that he will recover.

—Mrs. J. F. Hart has just completed a winter scene in oil which may be regarded as an admirable picture. It is about 42 by 20 inches. The coloring is most excellent, the perspective perfect, and all in all the work is a credit to the artist. It can be seen at the store of Mr. E. B. Heimstreet.

—Mrs. Shotbolt, of Harmony, died at her home two and a half miles east of the city, last evening, at the advanced age of ninety-one years. She was undoubtedly, at the time of her death, the oldest person in Rock county. Her funeral will take place at her late home to-morrow afternoon at one o'clock.

—In the municipal court to-day John Artes was found guilty of pointing a pistol at Thomas McNeairus, and was fined seven dollars and costs, amounting to a total of \$15.74. The affair happened last March, and a warrant was issued at the time, but Artes succeeded in keeping out of the way of the officers until to-day.

—The remains of the late Charles H. Payne arrived in this city on the 9:30 a. m. train from Bolton on the Northwestern road, and were met at the depot by Olive Branch Lodge No. 26, A. O. U. W., and were taken to the Baptist church, where the funeral services were conducted by Rev. Dr. M. G. Hedge, pastor. From thence the remains were taken to Oak Hill cemetery and buried in accordance with the service of the Ancient Order of United Workmen.

—The board appointed by Congressman Winsor, to conduct the competitive examination of candidates for nomination to a cadetship at West Point, met at Beloit this afternoon at 2 o'clock. The hour of meeting being in the afternoon precludes the Gazette from publishing a report of the result in this issue. The board will endeavor to finish the examination to-night. Much interest will be felt in the result, as the appointment to West Point is an all-important and valuable one to the young man who shall be so fortunate as to secure the nomination.

—The circuit court is still occupied with the case of the Burgess Steel and Iron works against the Harris manufacturing company, which will last probably two or three days longer. The testimony now being taken is of a technical character, respecting the properties and methods of working steel, and except for humorous efforts of the attorneys in reading long depositions of chemists, analysis of metals, and occasional salutes between counsel and witnesses, the proceedings are rather uninteresting to the casual spectator. Mr. Crosby has sufficiently recovered to be present in the court room to-day.

—The Jefferson Baumer, of yesterday, has the following account of the railroad collision on the Northwestern road: "A railroad smash-up occurred this side of Wales Station, on the Milwaukee & Madison division of the Chicago & Northwestern railroad, Tuesday afternoon about 3 o'clock, by the regular east bound passenger and work trains coming in collision with one another. The engines and several cars were thrown from the track a wreck, while one engine was killed and the firemen of both engines, severely, if not fatally, injured. Conductor Luther had one of his legs cut off, and if he recovers the shock, will be a cripple for the remainder of his life. The cause of the accident is attributed to Conductor Luther's miscalculation of the time; his train should have been clear of the track to allow the passenger its right of way. He pays very dearly for his carelessness or mistake."

—The weather.

REPORTED BY CLARENCE & EVANSON, DENTISTS. The thermometer at seven o'clock this morning registered 44 degrees above zero. Clear, with a north wind. At one p. m. the register was 52 degrees above zero. Partly cloudy, with a west wind. For the same hours one year ago the register was 47 and 44 degrees above zero.

—WASHINGTON, May 11, 1 a. m.—The following are the indications for to-day:

Upper Lake Region—Fair weather, winds mostly westerly, stationary or lighter temperature, higher pressure.

PHYSICIANS PRESCRIBE GOLDEN'S LIQUID BELL TONIC FOR THE WEAK, WEAK, AND DYSPEPTIC. TAKE NO OTHER.

taught a lesson that he will remember as long as he lives. He wished to be kindly remembered to his old acquaintances. He appears to be in good health and spirits, and hopes to be out in another year.

Louie Bradley, 1881—burglary and larceny—two years.

Charles L. Thompson, 1882—larceny—one year.

George Stewart, 1882—larceny—one year.

M. Ryan, 1882—larceny—three years and six months.

C. A. Green, 1882—larceny—one year.

George Stewart, 1882—larceny—one year.

Charles Deidrick, 1883—horse stealing—two years.

John Bolte, 1883—forgery—one year and three months.

Thomas Dorsey, 1883—larceny—three years.

Charles Deidrick, 1883—horse stealing—two years.

John Hoyt lost his barn; Mr. Ingberman also lost his barn.

Mr. Rosten's barn was entirely demolished, the roof torn from his house, his sorghum mill and tobacco shed torn to pieces.

Austin Springer lost his barn, in which were three horses and a colt, all being killed. The roof was also torn from his house.

Tracy Brown had the roof of his house torn off; his barn thrown from its foundation; his boy was picked up by the whirlwind, hurled through a barbed wire fence, and then carried into the air and thrown upon a hay-stack, maimed.

As stated in last evening's Gazette,

there are rumors of still further damage to the west of this, but we have no reliable reports concerning them.

and after swinging them over a barb wire fence, let them down in the same field, the only damage being a demolished wagon.

Hiram Hoyt lost his barn; Mr. Ingberman also lost his barn.

Mr. Rosten's barn was entirely demolished, the roof torn from his house, his sorghum mill and tobacco shed torn to pieces.

Austin Springer lost his barn, in which were three horses and a colt, all being killed. The roof was also torn from his house.

Testimony from the Press.

To those afflicted with lung trouble, hear what W. D. Wilson, of the Ottawa (Ill.) Times says: "After being disabled for three months with a cough, and lung trouble, often spitting up blood, can testify that I am cured permanently by the use of Dr. Ligelow's Positive Cure." A free trial bottle can be had at Sterns & Baker's drug store.

PERSONAL.

—The Hon. John Gould, of Clinton, was in the city to-day.

—Adjutant General C. P. Chapman, of Madison, was in the city yesterday.

—Mr. M. C. Smith has returned home from a business trip to Richland Center, Wisconsin.

—Mr. Ward Williams started for Watertown, Dakota, to-day, where he will live with his parents.

—Hon. John R. Bennett returned home from Wood county, this afternoon, where he has been holding court the past two weeks for Judge Parks.

—Mr. Fethers went to Beloit to-day to join the board appointed to conduct the competitive examination of candidates for appointment to West Point.

—Colonel Burr Robbins came home this morning from Braddock, sick. He is threatened with fever. The show is at Polo to-day—and will exhibit at Oregon to-morrow. Mrs. Robbins also came home with her husband. Both will rejoin the show as soon as the Colonel is able to travel. He is now at his Spring Brook home.

PERFECT SUCCESS.

These two words have a vast meaning when fully comprehended. A perfect success can be truthfully applied to Dr. Jones' Red Clover Tonic, which cures dyspepsia, biliousness, costiveness, all diseases of the kidneys, liver and bladder. It is a perfect tonic and blood purifier; it keeps the skin clear and bright, drives away pimples and makes the general health excellent. Price 50 cents, of Sterns & Baker.

Prof. Horsford's Baking Powder THE STRONGEST.

Prof. Wm. M. Habersham, Analytical Chemist to the Produce Exchange, New York, says that he has tested nine of the prominent baking powders purchased in open market, by disinterested persons, and finds that Horsford's has fully four times per cent. more gas than any of the others.

All kinds of upholstering done in the best of style on short notice at R. H. Morris' opposite the Myers house.
